**For Immediate Release:**

**RACKWISE Data Center Manager Selected as a Finalist for the “Best of Interop” Award**

***Rackwise Data Center Management and Intelligence Software***

Las Vegas, Nevada – May 18th, 2009 – Visual Network Design Inc. (dba Rackwise), the internationally recognized leader in data center management solutions today announced that its RACKWISE Data Center Manager (DCM) product has been selected as a finalist for the “Best of Interop” award in the Infrastructure Category. Interop 2009 is to be held May 18<sup>th</sup> - 21<sup>st</sup> at the Mandalay Bay Convention Center Las Vegas, Nevada, and Rackwise will be exhibiting at Interop booth 2450.

William Nelson, the Director of Product Management at Rackwise said, “We are glad to see our RACKWISE DCM product garnering the attention and recognition of the Interop community.”

RACKWISE Data Center Manager (DCM) is an enterprise class software solution that enables Visualization, Documentation, Modeling, Analysis, and Management of the data center infrastructure. Designed for managing today’s complex data center environments, RACKWISE DCM v3.4 with Data Center Intelligence enables data driven decisions for managers and executives; it has the industry’s most comprehensive Cost Savings Analysis and “Green” reporting for the data center and network systems infrastructure.

“As technology moves forward, disparate systems need to be integrated into one seamless dashboard that spans the data center and network infrastructure, at the same time, generating actionable information, producing significant cost savings for organizations, and protecting the environment.” said Dom Lesme, VP & General Manager at Rackwise.

**About RACKWISE:**

Founded in 2003, RACKWISE develops innovative software technology for the data center. The RACKWISE product family is broadly used by Global 2000 enterprises, service providers, and SMB’s to intelligently plan and manage their IT physical infrastructure.
